About The Instructors & Courses:

THIS COURSE: Strategies for Health, Longevity, Wellness, & Function. This workshop helps participants explore how inflammation, oxidative stress, nutrition, mitochondrial function, pain pathways, & lifestyle factors affect health, longevity, wellness, and musculoskeletal function, while connecting these concepts to chiropractic care & practical strategies for healthy aging, pain management, & reduced inflammation.

INSTRUCTOR: Dr. Dan Murphy has taught more than 1,250 post-graduate continuing education seminars worldwide. He has authored over 68 quarterly columns in the American Journal of Clinical Chiropractic and contributed to books on motor vehicle collision injuries and pediatric chiropractic.

THIS COURSE: Precision Longevity. This session explores personalized longevity strategies using lab testing, genetics, nutrition, supplementation, and case-based clinical application.

INSTRUCTOR: Dr. Lynn Toohey is a nutrition and health educator with a Ph.D. in Food Science and Human Nutrition and extensive experience in research, writing, teaching, lecturing, project management, and health promotion.
