

Arkansas Chiropractic Society Presents:

Dr. Trevor Berry & Dr. Brandon Brock

The Future of Neurology/Treatment, Integration and Prevention

August 28/29, 2022
North Little Rock, Arkansas

About The Instructors and Courses

INSTRUCTOR: Dr. Berry was born and raised in Alberta, Canada. He completed his pre-medicine requisites at the University of Calgary and went on to complete his Doctorate at Parker University in Dallas, Texas. He graduated Magna Cum Laude, Salutatorian and was the recipient of many academic awards including the Parker Scholastic Excellence Award. Upon completion of his Doctor of Chiropractic, Dr. Berry attended the Carrick Institute for Graduate Studies. Dr. Berry has traveled throughout North America and Europe attending neurology conferences and modules to obtain the most recent information in the field of functional neurology. He became a board certified Chiropractic Neurologist in 2001 upon passing the American Chiropractic Neurology board examination. He has over 2000 post-doctoral hours in the study of Neurology.

INSTRUCTOR: Dr. Brandon Brock is a clinician in Dallas, Texas who holds a doctorate in Family Nursing Practice from Duke University. He has returned back to Duke for continued training and specialization in orthopedics and also has a specialized fellowship training in stem cell technology and regenerative medicine. Dr. Brock is also a Global Clinical Research Scholar from Harvard Medical School with interests in secondary analysis, survey design and clinical trials. In Dallas he serves as a chief clinician at Foundations Physicians Group and Brock Integrative Medicine. He received the most outstanding functional neurology teacher of the year award from the ACA Council of Neurology four years straight.

THIS COURSE: The nervous system in the human body can be the most challenging to understand and treat. We will be discussing cutting edge treatments for neurological conditions such as strokes, autoimmune diseases, basal ganglia disorders, dementia and Alzheimer's. The instructors will take you through a patients' health history with special attention to these conditions and treatment recommendations.
