About The Instructors & Courses:

THIS COURSE: Brain/Body Fit, will cover chronic pain which is widespread in our population today. Specific protocols and techniques for common conditions such as neck, shoulder and low back pain will be taught using traditional chiropractic and applying one of the newest technological advances in the healing arts, laser therapy. We will discuss statistics involving chronic pain conditions. Demonstrations of treating chronic heel and foot pain with laser therapy will be performed.

INSTRUCTOR: Dr. Jerome Rerucha is an experienced clinician and owner of Performance Chiropractic & Wellness and Brain/Body FIT® Clinical Performance Systems. Dr. Rerucha provides his Brain/Body FIT comprehensive system of exam 3D Brain/Body Mapping®, and corrective solutions.

THIS COURSE: Proactive Health. This course will provide insights into physiological processes such as ATP production and mitochondrial function, focusing on laser therapy benefits for conditions like low back pain and brain trauma. Workshops will equip participants with advanced laser techniques to enhance patient care.

INSTRUCTOR: Dr Kirk Gair has been in private practice since 1999 and began using Erchonia cold lasers in 2004. During that time, he has worked with athletes of all levels, including Super Bowl Champions, MLB champions, High School wrestling National and State champions, college and high school football, baseball, and track champions and record holders, and with the Dodgers/Angles Fantasy Camp.
